The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims.

The "lower metal interconnect lever" is not shown in any of the drawings. The specification notes (middle of page 5) that the layer is not shown for simplicity. However, this is confusing to one reading the claims, and trying to find the features of the claims in the drawings. (Apparently, the "topmost" metal in the claims is the bottom metal in the drawings.) At least one of the drawings should be modified to indicate that layers have been left out. Perhaps a numeral could be added, with reference to the specification, to indicate the missing layer(s).

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New

Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

This application is in condition for allowance except for the following formal matters:

As noted above, "the lower metal interconnect level located over the semiconductor body" is not shown in the drawings.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
